VIKTOR KOCIÁN

FRONT-END DEVELOPER

PERSONAL PROFILE

I am a front-end developer with a minor focus on software development, financial and strategic management. My passions are challenges. I like to implement new technologies and optimize product development. I'm an excited junior developer who is very fond of learning and improving.

DESCRIPTION OF EXPERIENCE

I was involved in the development of a solution for a marketplace for a Czech customer. I also participated in the development of front-end part of a custom CMS. Last but not least, I worked on the development of a web solution for a Czech company dealing with cyber security certification and other areas. For all of the above projects I also had the role of scrum master.
